The sentiment of the mine owners, as voiced by C. C. Hamlin, secretary of the associtaion, is that all union miners must be driven out of the camp. His declaration that the time has come to purge the district started the rioting at the mass meeting in Victor, called to discuss the dynamite outrage at Independence.

"It's up to you to drive these scoundrels out," Hamlin had declared, whereupon Alf Miller, a union man who had been sworn in as deputy sheriff, raised his rifle and in-

Only three wounded men, Calderwood, Parker and McKelvel, were found in the hall, and there were no casualties in the attacking party. The uninjured men in the hall, forty in number, were placed under arrest, and all books and documents of the union

"The opinion among the miners is that the Citizens' Alliance is afraid the committee that has just returned from Cripple Creek may have produced good results by its visit. It is to break the strike and discredit the unions that the disturbances of yesterday were started.

"News dispatches contain references to the mass meeting that was in progress when the trouble originated. My own opinion is that this meeting was called by Mr. Hamlin, of the Mine Owners' Association, ostensibly to give an opportunity for free and fair discussion of matters involved in the strike, but, as a matter of fact, the scabs employed in the mines were to play the part of miners. Then when a union man attempted to speak he was to be shot down. As for the Citizens' Alliance, its members are absolutely unfair and pay no attention to law and order. This was brought out in the Telluride strike when miners were driven out and many forms of violence put into effect to defeat the strike. "This whole matter came up in a manner that appears very peculiar. Just after the visit of our committee, when the strike was progressing satisfactorily, and during the Governor's absence, the trouble springs up. There are few soldiers in the district. The Citizens' Alliance, absolutely unfair, will resort to anything. Such outrages do not occur during the presence of the military, who are responsible to some one besides

GEN. BELL HAS MARTIAL LAW PROCLAMATION

DENVER, Col., June 7 .- Adjutant General Sherman M. Bell, accompanied by a detail of staff officers, is on his way to the lands down the river as much water as Cripple Creek, bearing acting Governor Haggott's proclamation of martial law for that district. He has instructions to use his judgment as to the need for issuing the proclamation, and if he decides that conditions warrant it to place the gold camp under the reign of the military for the sc ond time since the strike of metalliferious miners began last August.

General Bell traveled on a regular Colorado & Southern train from Denver to Colorado Springs. At the latter place the adjutant general and his escort entered a special train and went on to Cripple Creek.

"The framing of the proclamation was the result of an appeal from Sheriff Bell, of Teller county, for troops, declaring that state of insurrection existed in the Cripple Creek district. The appeal reads: gresses. You are hereby advised that there is in existence in Teller county a riot and that mobs of men are acting together with intent to commit felonies, and that violence is being offered and attempted and threatened as well upon the persons of said county as upon property and that organized mobs are by force and violence breaking the laws of the State of Colorado and are threatening to continue to break the laws of the State of Colorado, and the civil authorities of said county are unable to suppress the said tumult and riots and are unable to disperse said mobs, and are unable to prevent the threatened violence to persons and to property. That numerous citizens of said county have requested me to demand such military protection as may be necessary to prevent violation of the

"Therefore, I, as sheriff of Teller county in view of the foregoing, hereby request that portion of the National Guard of Colorado as may be deemed necessary to enforce the law, preserve peace and suppress the insurrection now existing and threatened, be sent with all convenient speed for the said purpose to Teller county. REVOLVER MAY SOLVE "I hereby request that, inasmuch as state of insurrection and rebellion against the local authorities of the State of Colorado is in existence, that you, as chief executive of the State of Colorado and commander-in-chief of its military forces, proclaim the said county of Teller to be in a state of insurrection and rebellion."

DEPORTED MINERS GUARDED ON A TRAIN

COLORADO SPRINGS, Col., June 7 .- A special train consisting of an engine and two coaches, bearing fifty union miners deported from Cripple Creek by the citizens, passed through this city this evening. It was going at the rate of thirty miles an hour and did not stop here. The first car was empty and the second car had all the blinds drawn and armed guards were on the platform. The police and sheriff's posse here were determined not to let the deported men stop here and arrangements were made to carry them past the city. It is said they are headed for Denver. About 300 people were at the station to see the train pass through but there was no demonstration.
